
Pricing - LM Pulse (LM-IT)

AI website creator and estimated prices for custom projects

All prices are **net**. Start is a one-time payment, while Hosting and Full service are billed monthly. Custom project prices are estimates and depend on scope and complexity.

1. AI creator for simple business websites

Create a lightweight, responsive business website with the LM Pulse creator and AI assistant. Add your company description, services, contact details, logo, photos and design preferences.

Start — PLN 90 net one-time: ready-to-use website files; you arrange the domain, hosting and publication yourself.

Hosting — PLN 160 net/month: website preparation, publication on an LM Pulse server, HTTPS, monitoring and help connecting your domain; you purchase and renew the domain yourself.

Full service — from approximately PLN 220 net/month: website preparation, hosting, domain, HTTPS, business email, configuration and ongoing support within an agreed scope.

The scope of support and response times are tailored to the client's needs. Work beyond the agreed support scope is quoted separately. The final Full service price depends on the support scope, selected domain and third-party service costs. The creator is intended for simple business websites.

Open the creator: <https://webcreator.impulse.pl/>

2. Professional websites and web portals

Advanced websites and portals for businesses that need more functionality – multiple pages, forms, galleries or blog.

Built with modern technologies (Symfony, Bootstrap) ensuring speed, security and scalability.

Price: 9,000–15,000 PLN net.

3. Features and business systems

Extending the website with business functionality such as forms, admin panel, booking systems, databases or PDF/Excel generation.

Price: +3,000–25,000 PLN net (depending on complexity).

4. AI - artificial intelligence

Implementation of AI solutions such as chatbots supporting users and automating customer service.

Can also be integrated into an existing website (e.g. via JavaScript).

Price: 7,000–90,000 PLN net (depending on scope and integration level).

5. Websites based on ready-made systems (e.g. WordPress)

Simpler solutions based on popular CMS platforms – ideal for blogs or basic websites.

Possible integration with social media (e.g. Facebook).

Price: 2,000–5,000 PLN net.

6. Dynamic elements and integrations

Adding interactive elements and integrations with external services (e.g. Google – reviews, maps, autocomplete).

Price: 3,000–10,000 PLN net.

7. Custom project deployment

Publishing a custom website or system, configuring the production environment and integrating it with version control.

Price: 1,500 PLN net.

8. Custom system maintenance and support

Ongoing support: updates, monitoring, technical assistance and minor improvements.

First month free, then 300–700 PLN net/month.

9. System growth and development

Every project can be expanded over time – adding new features, integrations and automations.

Our systems are designed to scale and grow with your business.
